### **Center for International Energy Security Studies**

In order to strengthen the connection and cooperation among the institutions, relevant departments of government and energy enterprise, the Center for International Energy Security Studies was established in the graduate school of Chinese Academy of Social Sciences(GSCASS).

The purpose of this center is to construct the collaboration of government, industry, institution and to promote the further cooperation of all relevant aspects in the field of energy security by using the advantages in research and the powerful network of academic exchange of CASS. It is hoped that this center could give some creative and effective proposals for policy making.

#### **Objectives of the center:**

Establishing an international platform of energy security research;

Establishing national information and thinking bank of energy security research;

Establishing the national center for talents exchange of energy security research.
